Wildlife and Parks Commission

Notice of Hearing on Proposed
Administrative Regulations

A public hearing will be conducted by the Wildlife and Parks Commission at 7 p.m. Wednesday, November 19, at the Municipal Building, 119 N. Hersey, Beloit, to consider the approval and adoption of proposed department regulations.

A workshop meeting on business of the Wildlife and Parks Commission will begin at 1:30 p.m. November 19 at the location listed above. The meeting will recess at 5 p.m., then resume at 7 p.m. at the same location for the regulatory hearing. There will be public comment periods at the beginning of the afternoon and evening meetings for any issues not on the agenda, and additional comment periods will be available during the meeting on agenda items. Old and new business also may be discussed at this time. If necessary to complete the hearing or other business matters, the commission will reconvene at 9 a.m. November 20 at the same location.

Any individual with a disability may request accommodation in order to participate in the public hearing and may request the proposed regulations and economic impact statements in an accessible format. Requests for accommodation should be made at least five working days in advance of the hearing by contacting Cindy Baugh, commission secretary, at (316) 672-5911. Persons with a hearing impairment may call the TDD service at 1-800-766-3777 to request special accommodations.

This 60-day notice period prior to the hearing constitutes a public comment period for the purpose of receiving written public comments on the proposed regulations.

All interested parties may submit written comments prior to the hearing to the chairman of the commission, Kansas Department of Wildlife and Parks, Suite 502, Landon State Office Building, 900 S.W. Jackson, Topeka, 66612. All interested parties will be given a reasonable opportunity at the hearing to express their views orally in regard to the adoption of the proposed regulations. During the hearing, all written and oral comments submitted by interested parties will be considered by the

commission as a basis for approving, amending and approving, or rejecting the proposed regulations.

The regulations that will be heard during the regulatory hearing portion of the meeting are as follows:

K.A.R. 115-9-8. Migratory bird harvest information program; requirements, exemptions. This proposed new regulation would require that each person hunting migratory game birds in Kansas complete a migratory bird harvest information card and carry a stamp issued by the department as evidence of completion of the card. Tribal members on federal Indian reservations, landowners on their own lands, and persons under 16 or over 65 would be exempt from these requirements. The program is mandated by the U.S. Fish and Wildlife Service.

Economic Impact Summary: No substantial economic impacts are anticipated for the public or the department. A \$50 service charge, plus reimbursement from the U.S.F.W.S. for completed survey forms, are expected to cover administrative and production costs for at least the first year of the program.

K.A.R. 115-15-3. Threatened and endangered wildlife; special permits, enforcement actions. This regulation establishes a permitting process for publicly funded actions that result in physical alteration of the habitat of a species listed as threatened or endangered, or that destroy individuals of a listed species. The proposed amendments would implement a statutory directive to incorporate a current departmental operational directive into regulatory form. The amendments would exempt normal farming and ranching practices, as well as commercial and residential development of private property with private funds, from permitting requirements, unless the practices involve the intentional taking of a listed species or a permit is required by another agency. The amendments also would define "intentional taking," and state that law enforcement action only will address cases of intentional taking of a listed species.

Economic Impact Summary: Because the amendments basically put a current departmental operational directive into regulatory form, they would not alter current department practices, and therefore no substantial economic impact on the department or the public is anticipated.

K.A.R. 115-15-4. Recovery plans; procedures. This proposed new regulation would require that recovery plans be developed for species listed as in need of conservation, threatened or endangered. The regulation would implement a statutory directive to put such procedures into regulatory form. The regulation would provide for public comment and involvement in the development and implementation of a recovery plan. It also would define a recovery plan and would call for a review of each recovery plan once every five years.

Economic Impact Summary: The primary economic impact to the public would be for landowners who voluntarily sign land management agreements with the department based on a completed recovery plan, and who

therefore may qualify for income tax credits based on those agreements. The department estimates that development of each recovery plan will cost approximately \$25,000. Otherwise, any economic impacts to the department or to the public will depend on the substance of completed recovery plans and the number of landowners choosing to participate in the completed plans.

K.A.R. 115-18-7. Permanently disabled persons' use of crossbows for big game hunting; application, permit, and general provisions. This regulation previously provided a permit for certain permanently disabled persons to use a crossbow to hunt deer or antelope. The proposed amendments in the form of a permanent regulation would add elk and wild turkey to the species for which a crossbow may be used by permitted persons, in order to implement a statutory amendment.

Economic Impact Summary: Elk permits are annually sold out under current law. However, the regulation may lead to the sale of additional turkey permits, which would generate additional revenue for the department. Applicants for a permit are required to obtain a physician's report, which would involve an expense on the part of the applicant.

K.A.R. 115-18-14. Non-toxic shot; statewide. This regulation establishes legal types of shot for hunting migratory waterfowl and other migratory wetland birds. The proposed amendment would add tungsten-iron to the list of approved non-toxic shot materials within the state.

Economic Impact Summary: Due to its relatively high cost compared to other types of shot, the number of hunters using tungsten-iron is expected to be relatively small. To the extent it is used, the proposed amendment would provide an economic benefit to businesses providing it to hunters.

K.A.R. 115-18-15. Disability assistance permit; application, permit, and general provisions. This proposed permanent regulation would establish procedures for application and issuance of the disability assistance permit created by legislation. The permit would allow certain persons with permanent physical or visual disabilities, who cannot otherwise safely take game or fish, to designate someone to take the game or fish while accompanied by the permittee.

Economic Impact Summary: The availability of the permit may increase the sale of hunting and fishing licenses, as well as certain other issues such as deer permits. However, the number of people who will receive the permit is expected to be small, and the economic impact to the department is expected to be very minor. Applicants would be required to obtain a physician's or optometrist's report, which would be an expense for the applicant.

Copies of the complete text of the regulations and their respective economic impact statements may be obtained by contacting the chairman of the commission at the address above or by calling (785) 296-2281.

Request for Comments

The Kansas Department of Health and Environment has received and reviewed a request to expand the Graham County municipal solid waste landfill, located in Section 25 in Township 8S, Range 23W, south of Hill City. The landfill's current area is approximately 18 acres, and the proposed expansion would add a 20-acre tract to the east and south of the existing landfill. KDHE is providing public notice of its intent to issue an amended municipal solid waste landfill permit to Graham County that increases the permitted area. As a condition of the amended permit, the county will be required to submit updated design and closure plans and an operations plan and to modify environmental monitoring procedures. Once this information is submitted and approved, the requirements of new state and federal regulations for small arid landfills, which become effective October 9, 1997, will be fulfilled.

A copy of the administrative record, which includes the draft permit and all information regarding this permit action, is available for public review until October 20 during normal business hours, Monday through Friday, at the following locations:

Request for Comments

The Kansas Department of Health and Environment is soliciting comments regarding a proposed air quality operating permit. Larned State Hospital has applied for a Class II operating permit in accordance with the provisions of K.A.R. 28-19-540. Emissions of sulfur oxides (SO_x) were evaluated during the permit review process. The purpose of a Class II permit is to limit the potential-to-emit for these pollutants to below major source thresholds.

Larned State Hospital owns and operates a series of boilers and generators for its psychiatric hospital located at Route 3, Box 89, Larned.

A copy of the proposed permit, permit application, all supporting documentation and all information relied upon during the permit application review process is available for public review during normal business hours at the KDHE, Bureau of Air and Radiation, Building 283, Forbes Field, Topeka, and at the KDHE southwest district office, 302 W. McArtor Road, Dodge City. To obtain or review the proposed permit and supporting documentation, contact Cheryl Evans, (785) 296-6438, at the KDHE central office, or Wayne Neese, (316) 225-0596, at the KDHE southwest district office. The standard departmental cost will be assessed for any copies requested.

Direct written comments or questions regarding the proposed permit to Cheryl Evans, KDHE, Bureau of Air and Radiation, Building 283, Forbes Field, Topeka, 66620. In order to be considered in formulating a final permit decision, written comments must be received by the close of business October 20.

A person may request a public hearing be conducted on the proposed permit. The request for a public hearing shall be in writing and set forth the basis for the request. The written request must be submitted to Connie Carreno, Bureau of Air and Radiation, not later than the close of business October 20 in order for the Secretary of Health and Environment to consider the request.

A construction/demolition (C/D) landfill and asphalt plant also exist on-site. Stormwater runoff and pit water from the C/D landfill area drains or is pumped to a settling pond for treatment before being released to a ditch. The stormwater runoff from the quarry area and asphalt plant also is discharged to a settling pond for treatment even though no washing of rock occurs. Since water from the settling ponds is applied to roads for dust control and is used in the air pollution control equipment within the asphalt plant, the ponds seldom discharge. Facility Description: The proposed action is to modify the schedule of compliance in the existing permit. The permittee requested a one-year extension for submitting a report on monitoring data from monitoring wells. The permit was not issued in time to allow construction of the monitoring wells before winter weather set in, thus delaying the start of the monitoring project. Additional monitoring wells also were added during the project. KDHE has determined the extension request is reasonable and appropriate to obtain the information required by the permit.

Class of Dischargers	Legal Description	Receiving Waters

Hydrotesting Pipelines and Storage Tanks		Waters of Kansas

General Permit No. G-HydroT-9707-1

Kansas Permit No. I-AANN-PKNN (Permittee's State Permit Number)

Federal Permit No. KS-G67NNNN (Permittee's Federal Permit Number)

Description: This proposed national pollutant discharge elimination system (NPDES) permit is a general permit for the discharge of hydrostatic test water from new pipeline or storage tanks or used pipeline and storage tanks which were exposed to crude oil, refined petroleum products, liquified petroleum gases and natural gas or mixtures of these products. A NPDES general permit applies to a group or class of dischargers. Each member of the group or class has similar activities and types of discharges. This commonality enables the Kansas Department of Health and Environment (KDHE) to issue a NPDES general permit which applies to all of the group or class members discharging to similar waters of the state. Since the requirements of each permit are identical for all members of the group or class, the general permit is placed on public notice one time. Thereafter, permit applicants who make application to KDHE and meet the conditions for coverage specified in the NPDES general permit can be issued a general permit without additional public notice. The general permitting procedure will result in the permits being issued in a substantially shorter time frame compared to the currently used individual NPDES permits. Regardless of whether the general permit or an individual permit is issued, the permit conditions and limits established for the discharged wastewater are pursuant to the requirements of Kansas surface water quality standards, K.A.R. 28-16-28(b), and federal surface water criteria.

This draft NPDES general permit contains conditions, prohibitions, limitations, reporting and recordkeeping requirements similar to individual permits. It is applicable to the class of dischargers stated above for the discharge of hydrostatic test waters from new and used pipeline and storage tanks exposed to the various hydrocarbons named above. The discharges are allowed into all surface waters of the state, except KDHE retains the right to determine, on a case-by-case basis, the suitability of this general permit to cover such discharges to those waters classified as Outstanding Natural Resource Waters, Critical Water Quality Management Areas and Special Aquatic Life Use Waters as defined in the Kansas Administrative Regulations, Article 28, Chapter 16. Applicants discharging hydrostatic test water deemed unsuitable to discharge to these "exceptions" waters under this general permit will be required to obtain individual permits.

Applicants seeking a general permit for discharging hydrostatic test water to surface waters of the state are required to submit a notice of intent (NOI) and the \$60 annual permit fee to KDHE. If the discharge meets the requirements of the general permit, KDHE will provide the applicant a general permit showing the applicant's name, project description, permit duration, the project discharge locations and the standard conditions and requirement of the general permit. If the discharge does not meet the requirements of the general permit, the applicant will be required to obtain an individual permit to discharge the hydrostatic test water at the stated discharge location.

Copies of the draft general permit are available from, and correspondence concerning the general permit should be provided to, the address listed below.

Written comments on the draft permits must be submitted to the attention of Dorothy Geisler for agricultural permits, or to the permit clerk for all other permits, Kansas Department of Health and Environment, Division of Environment, Bureau of Water, J Street and 2 North, Forbes Field, Building 283, Topeka, 66620.

All comments postmarked or received on or before October 18 will be considered in the formulation of final determinations regarding this public notice. Please refer to the appropriate public notice number (KS-AG-97-215/220, KS-97-134/141, KS-ND-97-048, KS-GP-97-001) and the name of applicant as listed when preparing comments.

If no objections are received during the public notice period, the Secretary of Health and Environment will issue the final determination. If response to this notice indicates significant public interest, a public hearing may be held in conformance with state regulation 28-16-61 (28-46-21 for UIC). Media coordination for publication and/or announcement of the public notice or public hearing is handled by the Kansas Department of Health and Environment.

The applications, proposed permits, including proposed effluent limitations and special conditions, fact sheets as appropriate, comments received, and other information are on file and may be inspected at the Kansas Department of Health and Environment offices, Building 283, Forbes Field, Topeka, from 8 a.m. to 5 p.m. Monday through Friday.

The documents are available upon request at the copying cost assessed by KDHE. Additional copies of this public notice also may be obtained at the Division of Environment.

Temporary Administrative
Regulations

Article 9.—PAROLE VIOLATORS

45-9-2. Parole revocation hearings. (a) After a parolee is returned to a correctional institution, the parolee may request a hearing before the final decision on revocation by the board. The final hearing shall be held without unnecessary delay. The hearing to determine whether or not the parole should be revoked shall be conducted by the board or any member of the board. After considering all pertinent evidence, an appropriate order shall be entered by the board. If the violation is established to the satisfaction of the board, the parole may be reinstated or revoked by the board.

(b) Before the final hearing, the following information shall be provided to the parolee by the board:

(1) written notice of the alleged violations of parole; and

(2) the evidence against the parolee.

If the board finds there are additional violations other than those contained in the written notice, the hearing shall be continued so that a written notice of the additional violations and a statement of the evidence against the parolee can be prepared.

(c) The parolee shall have the right to confront and cross-examine adverse witnesses, unless the board finds good cause for not allowing confrontation. If the board does not allow the parolee to confront a witness, the reasons in the statement required by subsection (g) shall be specified by the board. If the parolee had the opportunity to cross-examine a witness at the probable cause hearing provided for in K.A.R. 44-9-105, the record may be relied upon by the board in lieu of calling that witness.

(d) The parolee shall have an opportunity to be heard in person and to present documentary evidence and witnesses who can provide information relevant to the allegations of the parole violation. Attendance of witnesses favorable to the parolee is the responsibility of the parolee and shall be at the parolee's expense. The hearing may be continued from time to time to allow for the attendance of witnesses.

(e) All relevant evidence shall be received by the board, including letters and affidavits. If the parole violation results from a conviction for a new felony or misdemeanor, arrangement for the presence of witnesses shall not be the obligation of the board, and the only question considered by the board shall be whether or not the new conviction warrants revocation.

(f) Each parolee shall be entitled to have legal counsel present at the hearing, at the parolee's expense.

(1) Upon request and at the board's discretion, legal counsel may be appointed by the board, based upon either of the following claims, which shall be timely and colorable:

(A) the parolee has not committed the alleged violation of the conditions upon which the parolee is at liberty; or

(B) there are substantial reasons that justify or mitigate the violation and make revocation inappropriate.

The board's decision regarding the appointment of counsel shall take into account whether or not the parolee appears to be capable of speaking effectively for that individual and whether or not the circumstances are complex or otherwise difficult to develop or present.

(2) In all cases in which a request for counsel at a preliminary or final hearing is denied, the grounds for denial shall be made in writing.

(g) If the inmate's parole is revoked, a written statement as to the evidence relied on and reasons for revoking parole shall be given to the inmate by the board. (Authorized by K.S.A. 1996 Supp. 22-3717, as amended by L. 1997, Ch. 181, Sec. 20; implementing K.S.A. 1996 Supp. 75-5217; effective May 1, 1986; amended May 1, 1987; amended, T-45-8-29-97, Aug. 29, 1997.)

Doc. No. 019661

State of Kansas**Kansas Commission on Governmental Standards and Conduct****Advisory Opinion No. 97-39**

Written August 12, 1997, to Bernie Norwood, Director, Division of Alcoholic Beverage Control, Kansas Department of Revenue, Topeka.

This opinion is in response to your letter of July 29, 1997, in which you request an opinion from the Kansas Commission on Governmental Standards and Conduct concerning the state level conflict of interest laws (K.S.A. 46-215 *et seq.*). We note at the outset that the commission's jurisdiction is limited to the application of K.S.A. 46-215 *et seq.*, and whether some other statutory system, common law theory or agency rule and regulation applies to your inquiry is not covered by this opinion.

Factual Statement

We understand you request this opinion in your capacity as the director of the Alcoholic Beverage Control Division of the Department of Revenue. You advise us that you were recently elected as president of the National Conference of State Liquor Administrators (NCSLA). In that capacity, you serve on a variety of committees, including the Italian/American Wine Committee. This committee coordinates activities between governments, and as president of NCSLA you speak for 37 American states and territories. The annual meetings for this committee are held alternately in the U.S. and Italy, with this year's meeting in Italy.

The Italian Trade Commission, a governmental entity, furnishes transportation and subsistence for NCSLA presidents. The wine industry has representation on the committee, but does not contribute to your participation. The sponsorship is done solely by the governmental entity.

Question

Is it a violation of the state level conflict of interest laws for you to receive travel and subsistence from a foreign government for serving as president of the NCSLA?

Opinion

The presidency of the NCSLA is not a state office and therefore not subject to the state level conflict of interest laws, K.S.A. 46-215 *et seq.* Thus, since the food and travel is not being provided to you in your "official position" as a state officer or employee, but as the president of the

(continued)

NCSLA, the situation you describe is not a violation of those laws.

Advisory Opinion No. 97-40

Written August 12, 1997, to Kay Jones-Ray, Personnel Director, Kansas State Historical Society, Topeka.

This opinion is in response to your letter of August 1, 1997, in which you request an opinion from the Kansas Commission on Governmental Standards and Conduct concerning the state level conflict of interest laws (K.S.A. 46-215 *et seq.*). We note at the outset that the commission's jurisdiction is limited to the application of K.S.A. 46-215 *et seq.*, and whether some other statutory system, common law theory or agency rule and regulation applies to your inquiry is not covered by this opinion.

Factual Statement

We understand you request this opinion in your capacity as the personnel director of the Kansas State Historical Society. You advise us employees of your agency often make presentations to various groups around the state. Some of these presentations take place after normal working hours and involve considerable travel. The employees are representing your agency and their attendance has been approved by the agency. In light of House Bill 2064, which became law on July 1, 1997, you are concerned about the reimbursement of expenses from these groups to your employees.

Questions

Based on this factual situation, you ask us the following questions:

1. Can employees of your agency accept reimbursement for mileage, lodging and meals from the groups the presentations are made to?
2. If not, can the Historical Society receive payment and then reimburse the employees?
3. Can employees of your agency partake in receptions and meals sponsored by the travel industry or local visitors bureaus?

Opinion

Section 4 of House Bill 2064 in the 1997 *Session Laws of Kansas* (Chapter 155) applies to all classified employees and those unclassified employees whose salaries are subject to approval by the Governor.

In answer to your first question, so long as your agency would have authorized payment and the employee's presence at these events serves a legitimate state purpose, the employee may be reimbursed by these groups for actual travel and related expenses incurred (see subsection (d) (2)).

Based on the answer to your first question, it is not necessary for the commission to address your second question.

Turning to your third question, without additional factual information, we cannot determine if employees of your agency could receive meals at these events. We do note that as a general rule, employees cannot receive free meals unless one of the exceptions in subsection (c) applies.

K.S.A. 46-237 applies to unclassified employees whose salaries are not subject to approval by the Governor. Under that statute, the answer to your first question remains the same, and therefore, your second question need not be addressed. Turning to your third question, the employees under the provisions of this statute may receive unlimited food and beverage so long as it is given and consumed in the presence of the donor.

Advisory Opinion No. 97-41

Written August 12, 1997, to Mark Duncan, Unit Chief, Bureau of Waste Management, Kansas Department of Health and Environment, Topeka.

This opinion is in response to your letter of July 8, 1997, in which you request an opinion from the Kansas Commission on Governmental Standards and Conduct concerning the state level conflict of interest laws (K.S.A. 46-215 *et seq.*). We note at the outset that the commission's jurisdiction is limited to the application of K.S.A. 46-215 *et seq.*, and whether some other statutory system, common law theory or agency rule and regulation applies to your inquiry is not covered by this opinion.

Factual Statement

We understand you request this opinion in your capacity as the unit chief for the Bureau of Waste Management of the Kansas Department of Health and Environment. You advise us that in KCGSC Opinion No. 97-12, this commission issued an opinion to Kurt Shobe, an employee under your supervision, concerning his ability to act as a consultant during off-duty hours. You believe that the facts have changed since the issuance of that opinion, and you are requesting this opinion in light of the new facts.

You advise us that statistical analysis of groundwater monitoring of solid and hazardous waste facilities is part of the overall process used by these facilities in operating the groundwater monitoring network. Your unit is charged with the oversight of these facilities during the entire process to ensure compliance. Due to the complexity of the statistical analysis, most facilities and environmental consultants lack the technical knowledge necessary to perform these tasks.

Mr. Shobe, due to his expertise in the area, entered into negotiations with various consulting firms to teach seminars concerning the statistical analysis. He then requested and received KCGSC Opinion 97-12 concerning his ability to teach these seminars. Subsequent to the issuance of that opinion, Ollson Environmental Services, an environmental consulting firm, contacted Mr. Shobe about helping to set up a statistical program for a facility in Nebraska.

Questions

Based on this factual situation, you ask us the following questions:

1. Does this employment outside the department constitute an ethics violation if all the work is done on an out-of-state facility?
2. Does this employment outside the department constitute an ethics violation if the consulting firm also does work on a Kansas facility?

3. Ollson Environmental Services also is the consultant to the Clay County landfill in Kansas. Mr. Shobe is the project manager for this site, and while it is possible to have another employee assigned to be the manager, it is impossible to remove him from reviewing or commenting on the materials submitted by the site. Would it be a conflict of interest for him to review material submitted by Ollson Environmental Services on behalf of the site after he has accepted money from the firm for work done outside of the state?

Opinion

We have reviewed the state level conflict of interest laws (K.S.A. 46-215 *et seq.*), and two sections may apply to your questions. K.S.A. 46-235 states:

No state officer or employee shall accept compensation for performance of official duties, other than that to which such person is entitled for such performance. No person shall pay or offer to pay any state officer or employee any compensation for performance of official duties, except a state officer or employee performing official duties in making payments to state officers and employees. The receipt of wages or salary from an individual's non-state employer during a period of service as a state officer or employee shall not be construed as compensation for performance of official duties.

K.S.A. 46-286(a) states:

No state officer or employee, in the officer's or employee's official capacity, shall participate directly in the licensure, inspection or administration or enforcement of any regulation of or in any contract with any outside organization with which the officer or employee holds a position.

Your questions raise two initial issues. First, if it is part of Mr. Shobe's official state duties to provide any of the services you describe, then he could not receive compensation for these services from anyone in the private sector (K.S.A. 46-235). Second, while Mr. Shobe may be overseeing some of Ollson Services' work, K.S.A. 46-286 does not apply since he is merely a consultant and does not hold "a position" with that firm.

In answer to your first question, so long as it is not part of Mr. Shobe's official state duties to provide these services to out-of-state sites, and because he does not hold "a position" with Ollson Services, this would not be a violation.

Turning to your second and third questions, so long as it is not part of his official state duties to provide these services to Kansas facilities, and because he does not hold "a position" with Ollson Services, these situations would not be violations of the law.

In closing, we note that K.S.A. 46-241 would prohibit him from using any confidential information acquired in the course of his state duties to further his or anyone else's personal economic gain.

Advisory Opinion No. 97-42

Written August 12, 1997, to the Honorable Kay O'Connor, State Representative, 14th District, Olathe.

This opinion is in response to your letter of August 2, 1997, in which you request an opinion from the Kansas

Commission on Governmental Standards and Conduct concerning the state level conflict of interest laws (K.S.A. 46-215 *et seq.*). We note at the outset that the commission's jurisdiction is limited to the application of K.S.A. 46-215 *et seq.*, and whether some other statutory system, common law theory or agency rule and regulation applies to your inquiry is not covered by this opinion.

Factual Statement

We understand you request this opinion in your capacity as a Kansas State Representative. You advise us that you are being considered for an appointment as the executive director for two non-profit corporations, the Educational Freedom Foundation and the Citizens for Educational Freedom. The efforts of both groups involve the national issue of school choice.

Questions

Based on this factual situation, you ask us the following questions:

1. In your position, would you be prohibited from lobbying outside of the State of Kansas?

2. Given your position as a legislator, would there be any violations of the conflict of interest laws or any restrictions on your behavior as a legislator or as the executive director?

Opinion

In answer to your first question, K.S.A. 46-225(f) prohibits a legislator from being "hired as a lobbyist to represent anyone before any state agency." The commission believes the phrase "any state agency" only applies to agencies in the State of Kansas. Therefore, you could be employed to lobby outside of Kansas.

K.S.A. 46-233 and K.S.A. 46-286 apply to your second question. K.S.A. 46-233(a) in pertinent part states:

No state officer or employee shall in the capacity as such officer or employee be substantially involved in the preparation of or participate in the making of a contract with any person or business by which such officer or employee is employed.

K.S.A. 46-286(a) states:

No state officer or employee, in the officer's or employee's official capacity, shall participate directly in the licensure, inspection or administration or enforcement of any regulation of or in any contract with any outside organization with which the officer or employee holds a position.

In applying these sections to your question, so long as you do not, as a state legislator, contract on behalf of the state with the corporations (K.S.A. 46-233), and you do not license, inspect or regulate the corporations (K.S.A. 46-286), there would not be a violation of those laws.

In closing, while you may be employed to lobby outside of the State of Kansas, when these organizations lobby in Kansas, it may well raise the appearance of impropriety.

Opinion No. 97-65

Automobiles and Other Vehicles—Seat Belts—Safety Belt Use Act; Passenger Car Defined; Vehicles Equipped for Occasional Off-Road Operation. Laurence A. Taylor, Thomas County Attorney, Colby, August 4, 1997.

The Safety Belt Use Act exempts operators of vehicles equipped with "special features for occasional off-road operation" from the mandatory seat belt requirement. Four-wheel drive vehicles designed primarily for passenger transportation, with special features provided principally to allow for proper handling during inclement weather or on unimproved roads with an ancillary purpose of off-road operation, are not included in this exemption. Any operator or front seat occupant of such a four-wheel drive vehicle shall comply with the mandatory seat belt requirement. State Boards, Commissions and Authorities—State Board of Technical Professions—Engineering; Exemptions from Requirements for Licensure or Certification. Mark L. Bennett, Jr., Counsel, State Board of Technical Professions, Topeka, August 4, 1997.

In accordance with K.S.A. 1996 Supp. 65-171d, as amended by 1997 House Bill No. 2219, the Kansas Department of Health and Environment may accept plans for a commercial feedlot which have not been prepared by a licensed engineer. This statute evidences a clear legislative intent that a commercial feedlot constitutes an agricultural building, so that a person preparing plans, drawings or specifications for a feedlot need not be a licensed engineer pursuant to exemption (b) in K.S.A. 74-7033. Additionally, if land surveying for a commercial feedlot is incidental to the design and construction of the feedlot's engineering work, a person engaged in the surveying need not be a licensed land surveyor pursuant to exemption (a) in K.S.A. 74-7034. Counties and County Officers—General Provisions—Home Rule Powers.

Counties and County Officers—County Commissioners—Powers and Duties; Providing Crushed Rock to Cities and Private Individuals. Representative Ed McKechnie, 3rd District, Pittsburg, August 4, 1997.

A county may furnish crushed rock for parking lots and streets pursuant to its home rule power if such action fulfills a public purpose and promotes the public welfare. K.S.A. 1996 Supp. 19-101a requires that a county exercise its power of home rule by resolution. Attorney General

Public Health—Licensure of Entities by State Board of Cosmetology—License Renewal; Continuing Education Requirements.

United States Constitution—Fourteenth Amendment—Due Process Clause. Glenda Cafer, Chairman, Kansas Board of Cosmetology, Topeka, August 4, 1997.

Based on the United States Supreme Court's definition of "property," it is our opinion that the holder of a cosmetology license, cosmetology technician license, manicurist license or electrologist license has a property interest in the license which is protected by the due process clause of the Fourteenth Amendment to the United States Constitution. It is further our opinion that the continuing education requirement as provided in Senate Bill No. 165, Section 6, is unreasonable, arbitrary and capricious in its effect of disqualifying nearly all persons currently licensed for reasons unrelated to a legitimate governmental purpose. Section 6 of S.B. 165 thus violates these licensees' rights to substantive due process of law as guaranteed by the Fourteenth Amendment. Automobiles and Other Vehicles—Uniform Act Regulating Traffic; Rules of the Road; Serious Traffic Offenses—Driving Under the Influence of Alcohol or Drugs by Any Person Less than 21 Years of Age; Blood Alcohol Concentration; Penalties; Criminal or Administrative in Nature. John LaFaver, Secretary, Department of Revenue, Topeka, August 4, 1997.

K.S.A. 1996 Supp. 8-1567a, making it unlawful for anyone less than 21 years of age to operate or attempt to operate a vehicle with a breath or blood alcohol content of .02 or greater, but less than .08, provides for a civil rather than a criminal proceeding for determining violation of its provisions. The only penalty for such violations is suspension of the individual's driver's license. The statute must be read in conjunction with K.S.A. 1996 Supp. 8-1001 and 8-1002 to determine the proceedings to be followed for notice, certification and hearing. The proceeding is administrative in nature and is to be conducted by the Division of Motor Vehicles. Nevertheless, the division must file abstracts of court records of "convictions" based on violations of K.S.A. 1996 Supp. 8-1567a rather than substituting its judgment for that of the court in determining the propriety of the court's proceedings. Crimes and Punishments; Kansas Criminal Code; Prohibited Conduct—Crimes Affecting Governmental Functions—Compounding a Crime; Diversion Fees.

Criminal Procedure; Kansas Code of Criminal Procedure—Procedure After Arrest—Diversion Agreements, Policies, and Guidelines. William R. Mott, Sumner County Attorney, Wellington, August 7, 1997.

A speeding infraction diversion agreement which requires the offender to pay diversion fees in excess of actual diversion supervision costs and/or to make a donation to charity does not constitute compounding a crime under K.S.A. 21-3807, provided the agreement meets other statutory requirements for diversion under K.S.A. 22-2906 *et seq.* Although a county attorney has prosecutorial discretion to dismiss a traffic citation without a diversion agreement, in order to carry out the legislative objective to create uniform diversion policies, a county attorney should follow the statutory diversion requirements for traffic offense diversions. The notification provision of K.S.A. 22-2907(3), when read in light of the purpose of the entire diversion act, does not prevent a county attorney from offering diversion to traffic offenders even though it may be impossible to inform each offender of the diversion policies and guidelines. Consideration of the information provided by a defendant along with any available records of the Kansas Bureau of Investigation or Department of Revenue constitutes compliance with K.S.A. 22-2908(a)(3). Pursuant to K.S.A. 22-4506, as amended by L. 1997, Ch. 181, § 6, if a trial court determines that appointment of counsel is necessary to represent a convicted felon who files a petition for writ of habeas corpus challenging conditions of confinement, the appointed counsel is entitled to compensation paid by the Board of Indigents' Defense Services.
